

Haymaker

Spring Barley

- Tall, awnless, forage barley
- Fine, soft, and very palatable
- Excellent fiber digestibility
- Performs best in drier soils
- Earlier than oats
- Our highest yielding forage barley; produces more forage **in a shorter time** than any other cereal crop

Agronomic Traits

| | |
|--------------------|-----------|
| Seeds/lb. | 14K |
| Yield | High |
| Maturity | Early |
| Standability | Good |
| Disease Resistance | Excellent |

Planting Rates

- 100 lbs/acre
