- ✓ Annual & perennial wildflowers
- ✓ 325,000 seeds per pound
- ✓ Coated with pinnacle clay for better germination

## A mixture of nectar rich annuals and perennials that attract honey bees

Honey Bee Flower Mix is a mixture of annual and perennial flowers that provide nectar and pollen to honey bees. These flowers are proven favorites of honey bees in our gardens and will provide you with bee forage spring through fall. Honey Bee Flower Mix is ideal for honey beekeepers or anyone interested in honey bee health.

**Enhanced germination and establishment rates by up to 50% with Pinnacle seed coating.**

### Recommended Seed Rates:

**1 lb. Cotton Bag: 2,000–6,000 sq.ft.**

**3 oz. Pouch: 200–500 sq. ft.**

This mix can be used in garden beds, borders, planter boxes and other maintained areas. It can also be spread in larger areas for a naturalized look. Plant heights vary from 6" to 48". This mix is widely adapted to most areas within United States and southern Canada. Our wildflower seed mixes feature Pinnacle seed coating from Summit Seed Coating, known for enhancing germination and establishment rates by up to 50%. Tests show coated seeds consistently outperform uncoated ones, resulting in quicker growth, better coverage, and more efficient seed use—saving you money in the long run.

**Available in 3 oz. pouches or 1 lb cotton bags**
